

WinEUR TIME SHEET

Management of time, employees and projects

WinEUR TIME SHEET enables the management of employee hours and allocation of hours to cost centres and/or projects and/or by client. Automatically integrate billing data. Each employee can input their hours and ventilate them as is due.

PRODUCT HIGHLIGHTS

- ✓ Define various types of user profiles with different access rights for each project and service
- ✓ Production report by employee
- ✓ Standard and detailed statistics, configurable on demand
- ✓ Format editor to customize documents according to your needs
- ✓ Simplified input by service and by project
- ✓ Screen set up when inputting transactions with application of date and employee filter
- ✓ Optional: full integration with WinEUR ACCOUNTING

Technical aspects

GENERAL ASPECTS

- Project management
- Staff management
- Service management with summary and text in various languages
- Management of employee cards by project with efficient input of time-sheets
- Link mandates to services
- Allocation of mandates to employees
- Input of daily and weekly Time Sheets
- Management of reimbursable expenses to employees
- Periodic billing (day, month, year)
