

WinEUR EXPENSES

Application available for iOS and Android

WinEUR Expenses is the first WinEUR mobile app edited in 2017.

Functional and easy to use, this app is available on Android and iOS and allows you to record your professional expenses, meals, accommodation, supplies, etc. wherever you are.

The module is multi currency, multi-company and is available in French and in English.

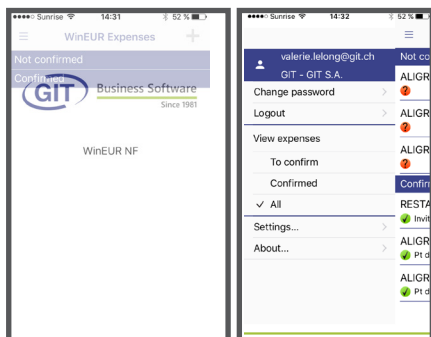

PRODUCT HIGHLIGHTS

- ✓ Direct integration with the WinEUR accounting software
- ✓ Paper free: receipts are photographed and temporarily stocked on by the mobile app on your smartphone
- ✓ Automatic accounting attribution according to the selected payment type
- ✓ Issue of a payment file for reimbursement of expenses to employees
- ✓ View the document linked to the expense in WinEUR Accounting, AP/AR, Analytic and others

Technical aspects

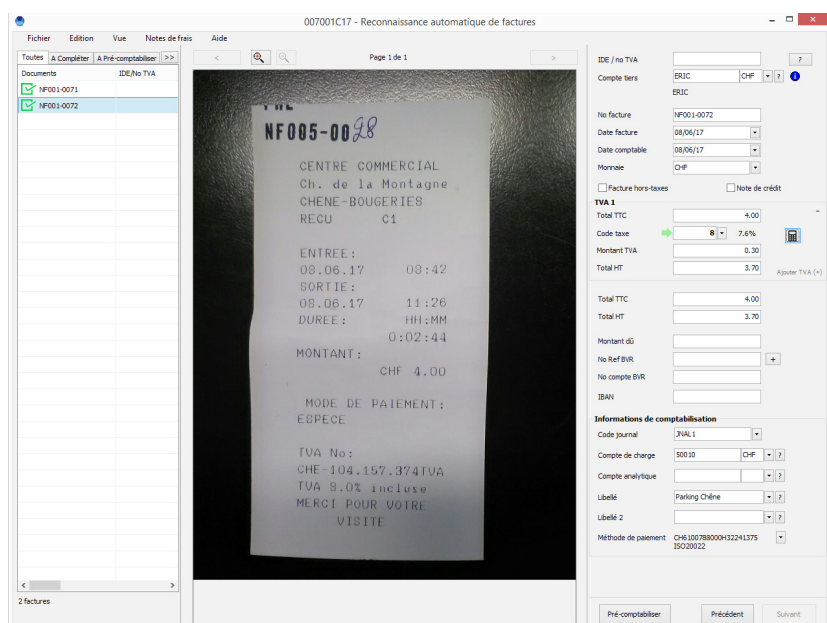

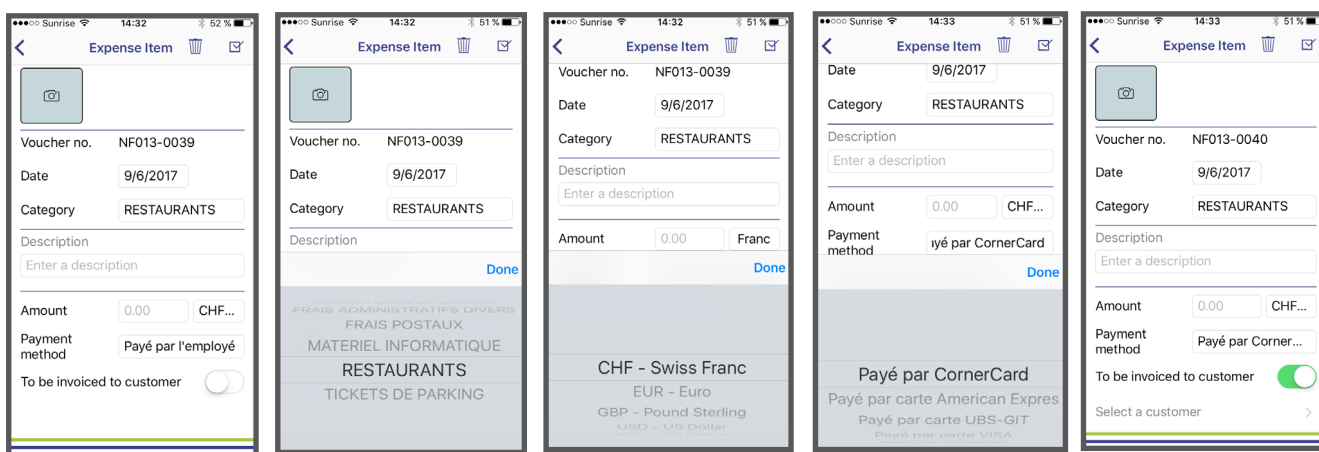

GENERAL ASPECTS

- Expense settings by category
- Expense categories: unlimited possibilities
- Retrieve all amounts directly from the WinEUR IZI-CLIK module

REIMBURSEMENT PROCESS

- The application is directly linked to WinEUR IZI-CLIK and transfers the approved expense report to this module.
- The party corresponding to the person to be reimbursed and the expense account are automatically retrieved from the expense report.
- The VAT portion of the expense report must be managed by the WinEUR user.
- After accounting via WinEUR IZI-CLIK, the account of the parties to be reimbursed will be credited.
- The WinEUR user creates a payment proposal with employed parties according to the expense reports recorded in accounting.
- When creating the payment, the WinEUR user can send the details by email to the employed parties.

Display the expense report via the application in the WinEUR IZI-CLIK module.
